

TO DO ONE

La nostra storia

Il gruppo Todone nasce nel 1965 operando nel settore della lavorazione del tavolame e degli elementi in legno. Successivamente anche nella produzione di sedute per la collettività e per il contract. La costante passione nella lavorazione del legno e la maturata esperienza, acquisita da mezzo secolo di storia, hanno permesso un elevato riconoscimento al livello internazionale.

La nostra produzione si rivolge ad un mercato molto selettivo e sempre più esigente, in termini di funzionalità, bellezza estetica e stabilità, caratteristiche specifiche che il mercato stesso riconosce ai prodotti Todone.

Filosofia

Una grande realtà produttiva al servizio del cliente, ma anche una grande attenzione alle problematiche importanti di tutti i giorni, ambientali innanzitutto. Infatti utilizziamo per la nostra produzione solo legno nobile, proveniente da foreste europee a taglio controllato e selezionato.

Per assicurare i migliori standard qualitativi, l'intero processo produttivo si svolge all'interno della nostra azienda. Arriva in azienda tavolame fresco che viene essiccato in modo naturale perché cerchiamo la perfezione sin dalle prime fasi di lavorazione. Ritenuto raggiunto lo stadio ottimale di umidità si passa alla lavorazione, dove una volta controllate venature, nodi e spaccature, si disegnano le sagome sul legno. Tradizioni passate ma sempre presenti che permettono di raggiungere quella qualità richiesta dal cliente e che contraddistinguono i prodotti Todone. La nostra vasta gamma di modelli per la collettività e per il contract sono scelti in base a un ricercato equilibrio tra creatività e un ascolto attento dei bisogni espressi e inespressi del mercato.

The company

Todone group was founded back in 1965 as manufacture of lumber and wood components. Later on Todone started to produce seating for community and contract use. Our constant commitment to quality woodworking and our vast experience, acquired in fifty years work, have earned us a fine international reputation.

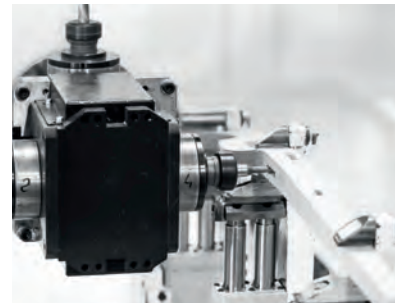

Our production targets a very discerning and increasingly demanding market in terms of functionality, aesthetics and stability – specific characteristics which the market finds in Todone products.

Our mission

A leading, customer service-driven manufacturer that also pays great attention to major topical concerns, especially those concerning the environment. In fact we use only noble wood for our products, sourced from selected, sustainable managed european forests.

To ensure the highest quality standards, we perform the entire production process within our factory. We received fresh timber which is then dried naturally because our pursuit of perfection starts from the very first stage of production. Once the wood has reached optimum humidity it is sent to the sawmill where we check its grain and any knots or cracks before drawing on the wood the shape to be cut. Traditions from the past that are still used today to give our products the hallmark Todone quality our customers have come to expect. The selection of our wide range of community and contract seating are based on the superior creativity and attentiveness to the market's expressed and hidden needs.

JANE

SEDIA - CHAIR
POLTRONA - ARMCHAIR

Forme lineari ed aggressive. L'attenzione è subito catturata dalla particolare struttura geometrica in essenza di faggio e dalle esili ma robuste gambe che si prolungano nei braccioli unendosi le une agli altri, creando una linea continua. La scocca ampia e squadrata, rendono questo modello un protagonista dello spazio in cui viene collocato: che si tratti di uno spazio notte domestico, oppure di una sala d'attesa, del salone di un hotel, o un altro spazio collettivo .

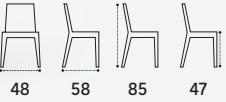

Linear and aggressive shapes. One's attention is immediately captured by the particular geometric structure in beech wood and by the thin but strong legs that turn into armrests, merging into one another and creating a special continuous line. The wide, square frame, upholstered make this model sovereign of the space it occupies: be a waiting room, a hotel lounge or any other collective space.

DIVINA

SEDIA - CHAIR
POLTRONA - ARMCHAIR

Proposta in versione sedia e poltroncina ha il suo cuore nella struttura essenziale, geometrica e di lineare semplicità.

In essenza di faggio, morbida e accogliente grazie alla soffice imbottitura che avvolge il sedile e lo schienale. La particolare linea estetica, originale e nuova del bracciolo esprime qualcosa di nuovo e positivo che unisce la semplicità ad un'elevata abilità tecnica di progettazione.

Available as armchair and side chair, has its heart in the geometric and minimalist structure, in beech, soft and welcoming thanks to the soft material that covers the seat and back.

Arm's special, original and new aesthetic lines express something positive and new that combines simplicity and an elevated technical design capability.
