Panky Seating System

Panky is the modular and customisable seating system for furnishing waiting and reception areas, based on the 2027 trestle frame that allows it to be combined with operational office furnishings. The creation of a Panky configuration entails 3 simple steps, shown hereafter: choose the frame, available in 3 lengths; compose the sofa with cushions, cushions with back and/or armrest, tops; and finally join up the composition with 45° or 90° connections, whether composed of service tops or cushions.

Panky è il sistema di sedute modulare e personalizzabile per arredare gli spazi dedicati all'attesa e all'accoglienza, basato sulla struttura a cavalletto 2027 che consente l'abbinamento con gli arredi operativi dell'ufficio. La creazione di una configurazione si svolge in 3 semplici step, riportati di seguito: scegliere la struttura, disponibile in 3 lunghezze; comporre il divano con cuscini, cuscini con schienale e/o bracciolo, piani; ed infine collegare la composizione con connessioni a 45° o 90°, siano esse realizzate con piani di servizio o cuscini.

TABLES Collection

Agile

Studio Eurolinea Design

The multifunctional Agile Table Collection reveals essential aesthetics.

Available with rectangular solid laminate tops, the Agile Collection utilizes techno-polymer legs in different colors, supported by a steel frame.

Agile è una collezione di tavoli multifunzionale dall'estetica ricercata ed essenziale.

Realizzato con piani rettangolari in laminato, Agile utilizza gambe in tecnopolimero in diverse colorazioni, supportate da una cornice in acciaio.

Aprio

Forsix Design

Frame Color / Colore Struttura

00

10

Compactop Color / Colore Piano Compactop

5547

6076

Aprio is an extendable rectangular garden table, with an epoxy powder coated aluminum frame and compact laminate top. Thanks to the construction materials and the telescopic extending frame, integrated with the legs, the table lends itself perfectly to both indoor and outdoor use. The patented extension system allows the structure to slide, keeping the legs always at the ends of the table. A quick coupling system allows easy extension by inserting one or two of the leaves that are hidden within the frame itself.

Aprio è un tavolo da giardino rettangolare allungabile, con struttura in alluminio verniciato a polveri epossidiche e piano in Compactop. Grazie ai materiali di costruzione e alla struttura telescopica di allungo, solidale con la gamba, il tavolo si presta perfettamente all'utilizzo sia indoor che outdoor. Il sistema brevettato di allungo consente lo scorrimento della struttura, mantenendo le gambe sempre alle estremità del tavolo. E' possibile scegliere di allungare il tavolo aggiungendo con facilità una o due prolunghe, completamente nascoste all'interno della struttura, grazie ad un sistema di aggancio rapido.

Arket

Studio Eurolinea Design

The new Arket table collection is made using basic geometrics - radii and linear sections intersect to achieve distinctly intuitive shapes.

The aluminum bases have three or four spokes with adjustable feet, and the stems come in sections with three or four surfaces.

The table tops are made of steel: the tables are thus painted in a solid color and easily customizable and adaptable to the most prestigious of installations.

La nuova collezione di tavoli Arket è realizzata utilizzando le geometrie più elementari, raggi e sezioni lineari si intersecano per ricavare forme essenziali ed intuitive.

I basamenti, a tre o quattro razze, con piedini regolabili, e gli steli, a sezioni con tre o quattro superfici, sono realizzati in alluminio.

I piani sono realizzati in acciaio: i tavoli sono così verniciati in tinta unita e facilmente personalizzabili ed adattabili alle più prestigiose installazioni.

Arket Porcelain

Forsix Design

The Porcelain stoneware tops stand out for their excellent technical performance, ideal for the most delicate uses where maximum hygiene and resistance must be guaranteed. Porcelain tops are compatible with foodstuffs, resistant to fungi and molds, suitable for both indoor and outdoor use, resistant to frost, heat and high temperatures, they can be cleaned very easily while maintaining the characteristics of the surface.

I piani in Gres Porcellanato si distinguono per le eccellenti performance tecniche, ideali negli impieghi più delicati nei quali è necessario garantire la massima igiene e resistenza. I piani Porcelain sono compatibili con le sostanze alimentari, resistenti a funghi e muffe, idonei ad un utilizzo sia interno che esterno, resistenti al gelo, al calore e alle alte temperature, si possono pulire con estrema facilità mantenendo inalterate le caratteristiche della superficie.

Arket Plus

Forsix Design

Arket Plus Collection is made using basic geometrics, achieving distinctly intuitive shapes. The table tops are made of steel, the three spokes bases are made of co-injected metal and technopolymer. Stem and cross are made in aluminum, and provided with flip-top joint. The shape of the base and the flip-top mechanism allow the table to easily fold and stack, space-saving.

La Collezione di tavoli Arket Plus è realizzata utilizzando le geometrie più elementari, ottenendo così forme essenziali ed intuitive. I piani del tavolo sono realizzati in acciaio, la base a tre razze è costituita da una struttura in metallo co-iniettata con tecnopolimero. Colonna e crociera sono realizzate in alluminio, dotate di giunto per la rotazione del piano. La forma della base e la meccanica che permette la rotazione del piano rendono il tavolo facilmente accatastabile in spazi ridotti.

Charme

Studio Eurolinea Design

Elegance and essential shapes find a new expression in the Charme table, a proposal designed for workspace and hospitality environments, which is characterized by the particular design of the metal legs.

The regular shapes harmonize each other, creating a product also suitable for conviviality, thanks to the top in "Iron" composite material which highlights great stability and resistance.

Eleganza ed essenzialità trovano una nuova espressione nel tavolo Charme, una proposta ideata per lo spazio di lavoro e dell'ospitalità, che si caratterizza per il particolare design delle gambe in metallo.

Le forme regolari si armonizzano tra loro, dando vita a un progetto improntato anche alla convivialità, grazie al piano in materiale composito "Iron" dalla grande stabilità e resistenza.

Hug Marble

Studio Eurolinea Design

The Hug tables collection, made with a 4-star aluminum base, equipped with adjustable feet, is enriched with new Marble tops, thus adapting to the most prestigious installations. The Marble tops, characterized by always different veins of natural stones, contribute to enhance elegance and refinement for the most demanding environments.

The solid Marble surfaces, shiny and glossy, are treated to reduce their porosity, however constant care and cleaning of the product is recommended.

La collezione di tavoli Hug, realizzata con basamento 4 raze in alluminio, dotata di piedini regolabili, si arricchisce di nuovi piani quadrati in Marmo, adattandosi così alle installazioni più prestigiose. I piani in Marmo, caratterizzati dalle sempre diverse venature della pietra naturale, offrono eleganza e raffinatezza, per completare con esclusività gli ambienti più ricercati. I solidi piani in Marmo, splendenti e lucidi, sono trattati per ridurre la porosità, tuttavia si consiglia pulizia costante e cura nell'utilizzo del prodotto.

Hug Porcelain

Studio Eurolinea Design

The Hug tables collection, made with a 4-star aluminum base, equipped with adjustable feet, is enriched with new Porcelain tops, thus adapting to the most prestigious installations. The Porcelain stoneware tops stand out for their excellent technical performance, ideal for the most delicate uses where maximum hygiene and resistance must be guaranteed. Porcelain tops are compatible with foodstuffs, resistant to fungi and molds, suitable for both indoor and outdoor use, resistant to frost, heat and high temperatures, they can be cleaned very easily while maintaining the characteristics of the surface.

La collezione di tavoli Hug, realizzata con basamento 4 razze in alluminio, dotata di piedini regolabili, si arricchisce di nuovi piani quadrati in Gres Porcellanato, adattandosi così alle installazioni più prestigiose. I piani in Gres Porcellanato si distinguono per le eccellenti performance tecniche, ideali negli impieghi più delicati nei quali è necessario garantire la massima igiene e resistenza. I piani Porcelain sono compatibili con le sostanze alimentari, resistenti a funghi e muffe, idonei ad un utilizzo sia interno che esterno, resistenti al gelo, al calore a alle alte temperature, si possono pulire con estrema facilità mantenendo inalterate le caratteristiche della superficie.

Lol

Forsix Design

The "Lol" table collection is intended for outdoor use; youthfully simple and sunny, its design blends in discreetly with either the most sparkling or the most sober environments. The table tops with composite material core, as well as the bases, available with three or four spokes, are made up of a metal structure treated for outdoor use, and with a matt finish. The available colour palette is common to many Gaber seating collections, guaranteeing tone-on-tone colour co-ordination throughout designed settings rather than lively contrasts, defining various colour combinations between bases, tops and seating.

La collezione di tavoli Lol, disegnata da Forsix, è ideale per l'utilizzo all'aria aperta: giovane, semplice e solare, il suo design si fonde con discrezione dagli ambienti più sobri a quelli più frizzanti. I piani del tavolo, dal cuore in materiale composito, come anche i basamenti, disponibili a tre o quattro razze, sono costituiti da una struttura in metallo trattata per esterni, dalla finitura opaca. La palette di colori disponibile è comune a molte collezioni di sedute Gaber, garantendo abbinamenti tono su tono degli ambienti progettati, piuttosto che vivaci contrasti, definendo diverse combinazioni di colori tra basi, piani e sedute.

Lol Plus

Forsix Design

The Lol Plus tables collection is made of steel, the cross is made in aluminum, and provided with flip-top joint. The shape of the base and the flip-top mechanism allow the table to easily fold and stack, space-saving. The available colour palette is common to many Gaber seating collections, guaranteeing tone-on-tone colour co-ordination throughout designed settings rather than lively contrasts, defining various colour combinations between bases, tops and seating.

La Collezione di tavoli Lol Plus è realizzata in acciaio, la crociera è realizzata in alluminio, ed è dotata di giunto per la rotazione del piano. La forma della base e la meccanica che permette la rotazione del piano in posizione verticale, rendono il tavolo facilmente accatastabile in spazi ridotti. La palette di colori disponibile è comune a molte collezioni di sedute Gaber, garantendo abbinamenti tono su tono degli ambienti progettati, piuttosto che vivaci contrasti, definendo diverse combinazioni di colori tra basi, piani e sedute.

The Porcelain stoneware tops stand out for their excellent technical performance, ideal for the most delicate uses where maximum hygiene and resistance must be guaranteed. Porcelain tops are compatible with foodstuffs, resistant to fungi and molds, suitable for both indoor and outdoor use, resistant to frost, heat and high temperatures, they can be cleaned very easily while maintaining the characteristics of the surface.

La collezione di tavoli Lol si arricchisce di nuovi piani in Gres Porcellanato, dalle forme rotonde o quadrate, adattandosi così alle più prestigiose installazioni. I piani in Gres Porcellanato si distinguono per le eccellenti performance tecniche, ideali negli impieghi più delicati nei quali è necessario garantire la massima igiene e resistenza.

I piani Porcelain sono compatibili con le sostanze alimentari, resistenti a funghi e muffe, idonei ad un utilizzo sia interno che esterno, resistenti al gelo, al calore a alle alte temperature, si possono pulire con estrema facilità mantenendo inalterate le caratteristiche della superficie.

Minush

Studio Eurolinea Design

The Minush stackable coffee table, made of technopolymer, takes up the lines of some collections of Gaber chairs and sunbeds, but suit perfectly any outdoor seat as a practical support for small objects.

Il tavolino impilabile Minush, realizzato in tecnopolimero, riprende le linee di alcune collezioni di sedute e lettini Gaber, ma ben si adatta ad accompagnare qualunque seduta da esterno come pratico appoggio per piccoli oggetti.

Norman Marble

Forsix Design

The Norman table collection utilizes a 4 legged aluminum frame, available in many vibrant colours. The Marble tops, characterized by always different veins of natural stones, contribute to enhance elegance and refinement for the most demanding environments. The solid Marble surfaces, shiny and glossy, are treated to reduce their porosity, however constant care and cleaning of the product is recommended.

La collezione di Tavoli Norman utilizza una struttura 4 gambe in alluminio, disponibile in vari colori di tendenza. I piani in Marmo, caratterizzati dalle sempre diverse venature della pietra naturale, offrono eleganza e raffinatezza, per completare con esclusività gli ambienti più ricercati.

I solidi piani in Marmo, splendenti e lucidi, sono trattati per ridurre la porosità, tuttavia si consiglia pulizia costante e cura nell'utilizzo del prodotto.

Surfy 2027 Tables & Desks

Table collection, meeting tables and modular desks, part of the "2027" system, suitable for completing hospitality and office settings with integrated design. The tables are made with painted metal structures and Laminate or Compactop table-tops, available with metal fairlead solutions.

Collezione tavoli, tavoli meeting e scrivanie modulari, parte del sistema "2027", adatti a completare con lo stesso design progetti integrati di ospitalità ed ufficio. I tavoli sono realizzati con strutture in metallo verniciato e piani in Laminate o Compactop, disponibili con soluzioni passacavi in metallo. Strutture di sostegno con forma a cavalletto per essere snelle e resistenti, oltre che colorate a tutto tondo.

Tag Marble

Ilaria Marelli Design

The Marble tops, characterized by always different veins of natural stones, contribute to enhance elegance and refinement for the most demanding environments. The solid Marble surfaces, shiny and glossy, are treated to reduce their porosity, however constant care and cleaning of the product is recommended.

I piani in Marmo, caratterizzati dalle sempre diverse venature della pietra naturale, offrono eleganza e raffinatezza, per completare con esclusività gli ambienti più ricercati. I solidi piani in Marmo, splendenti e lucidi, sono trattati per ridurre la porosità, tuttavia si consiglia pulizia costante e cura nell'utilizzo del prodotto.

Tag Porcelain

Ilaria Marelli Design

The Porcelain stoneware tops stand out for their excellent technical performance, ideal for the most delicate uses where maximum hygiene and resistance must be guaranteed. Porcelain tops are compatible with foodstuffs, resistant to fungi and molds, suitable for both indoor and outdoor use, resistant to frost, heat and high temperatures, they can be cleaned very easily while maintaining the characteristics of the surface.

I piani in Gres Porcellanato si distinguono per le eccellenti performance tecniche, ideali negli impieghi più delicati nei quali è necessario garantire la massima igiene e resistenza. I piani Porcelain sono compatibili con le sostanze alimentari, resistenti a funghi e muffe, idonei ad un utilizzo sia interno che esterno, resistenti al gelo, al calore a alle alte temperature, si possono pulire con estrema facilità mantenendo inalterate le caratteristiche della superficie.

Together

Mark Sadler Design

Together is a solid and versatile table, suitable to be utilized with elegance in all modern environments. The legs, made of natural solid oak, are combined with a natural oak veneered top, thus obtaining a pleasant visual play of solid interlocking between the leg and the top. With a simple and elegant design, Together adapts to any decorative context, expressing the warmth of wood and its small details. The legs are always at the extreme of tops sizes. Together è un tavolo solido e versatile, adatto ad essere inserito con eleganza in tutti gli ambienti moderni. Le gambe, realizzate in rovere massello naturale, sono abbinata ad un piano impiallacciato rovere naturale, ottenendo così un piacevole gioco visivo di solido incastro tra la gamba e il piano. Dal design semplice ed elegante, Together si adatta a qualunque contesto decorativo esprimendo il calore del legno ed i suoi piccoli dettagli. Le gambe restano sempre all' estremo.

ABOUT COMPACTOP: MUCH MORE THAN A MERE SURFACE

Gaber Compactops are made of high-pressure laminate, consisting of numerous layers of paper saturated with thermosetting resins and bonded through the combined action of heat and high pressure. The paper used on Compactop (around 70% of the complete composition) comes from production processes that conform with the FSC chain of custody; phenolic and melamine resins are all strictly water-based.

The result is a stable, non-reactive, homogenous, non-porous, antistatic, high-density product with a totally distinct physical and chemical profile from that of its constituent parts. Thanks to the heat and high-pressure treatment it they undergo, Gaber Compactops are exceptionally tough and resistant to scratches, abrasions, chemicals and heat, making them ideal for a wide range of contract applications. Tops come pre-bored for Gaber kit bases.

Gaber Compactops conform to EN 438/1. According to this norm, the most important characteristics of Gaber Compactops are: their resistance to bumps, scratches, and wear and tear; color-fastness; easy cleanability; suitable for contact with food and general hygiene.

UNI EN 438 is the reference standard for Compactop Gaber tops. This standard prescribes tolerances in the flatness of the product and on possible stains and other similar surface defects, for which the admissible size is based on a maximum contamination area equivalent to 1mm² / m² of laminate, concentrated in a single point or distributed in more points, proportional to the size of the sheet under inspection.

MAINTENANCE & CLEANING

No specific maintenance other than normal cleaning is required. The compact, non porous surface can easily be cleaned and disinfected with hot water, steam and any common non-abrasive household detergents and disinfectants, as long as these are not highly alkaline. Just a couple of precautions are necessary: avoid using strong acids and bases and avoid wiping with highly abrasive substances or equipment.

CHE COS'È IL COMPACTOP? MOLTO PIÙ DI UNA SEMPLICE SUPERFICIE

Il Compactop che Gaber utilizza per i propri tavoli è un laminato realizzato ad alta pressione, costituito da numerosi strati di carta impregnati con resine termoindurenti fenoliche e melaminiche, compattati attraverso l'azione combinata di calore ed alta pressione. Le carte utilizzate (circa il 70% della composizione dei piani) derivano da processi che seguono il protocollo della catena di custodia certificata FSC; le resine fenoliche e melaminiche sono tutte rigorosamente realizzate su base acquosa.

Il risultato è un prodotto stabile, non reattivo, omogeneo, non poroso, antistatico e di alta densità. Grazie al trattamento di alta temperatura e pressione cui è sottoposto, il Compactop è un materiale estremamente robusto: resistente a graffi, urti, abrasioni, sostanze chimiche e calore; caratteristiche che lo rendono il materiale ideale per una vasta gamma di applicazioni. I fissaggi dei piani Compactop sono già predisposti per i basamenti Gaber.

Il Compactop è conforme alla norma EN 438/1, secondo la quale, queste sono le principali caratteristiche di qualità di questo materiale: Resistente all'impatto, ai graffi e all'usura, stabile alla luce, facile da pulire, igienico, adatto al contatto con i cibi.

La UNI EN 438 è la norma di riferimento dei piani in Compactop Gaber. Tale normativa prescrive tolleranze nella planarità del prodotto e su possibili macchie e altri difetti superficiali simili, per i quali la dimensione ammissibile è basata su un'area di contaminazione massima equivalente a 1mm²/m² di laminato, concentrata in un unico punto o dispersa in più punti, proporzionale alla dimensione del foglio sottoposto a ispezione.

MANUTENZIONE E PULIZIA

Il Compactop non richiede alcuna manutenzione particolare al di là della normale pulizia.

La sua superficie compatta e non porosa può essere facilmente pulita e disinfettata con acqua calda, vapore e tutti i tipi dei più comuni detergenti e disinfettanti per uso domestico, purché non alcalini. Sono necessarie solo poche precauzioni, quali evitare l'uso di acidi o basi forti, evitare di strofinare con sostanze o strumenti fortemente abrasivi.

ABOUT FENIX COMPACTOP

Gaber's Fenix Compactop differ from standards as they are built with new generation materials on exposed coated surfaces, made using nanoparticles and acrylic resins. This coating avoid fingerprints on the material, make it soft-touch, heat-repairing, opaque and extremely resistant to bumps and scratches. In addition to this, the material is water repellent, hygienic, easy to clean and suitable for food-contact.

MAINTENANCE & CLEANING

No specific maintenance other than normal cleaning is required. The compact, non porous surface can easily be cleaned and disinfected with a soft cloth dampened with hot water, steam and any common non-abrasive household detergents and disinfectants, as long as these are not highly alkaline. Just a couple of precautions are necessary: avoid using strong acids and bases and avoid wiping with highly abrasive substances or equipment.

CHE COS'E' IL FENIX COMPACTOP

I piani Compactop Fenix di Gaber differiscono dagli standard in quanto prevedono l'utilizzo delle superfici esposte rivestite con materiali di nuova generazione, realizzati per mezzo dell'uso di nanoparticelle e resine acriliche. Tali rivestimenti rendono il materiale anti-impronta, morbido al tatto, termo-riparatore, opaco ed estremamente resistente ad urti e graffi. Oltre a ciò, il materiale è idrorepellente, igienico, resistente alle muffe, facile da pulire e adatto al contatto con alimenti.

MANUTENZIONE E PULIZIA

Il Compactop non richiede alcuna manutenzione particolare al di là della normale pulizia.

La sua superficie compatta e non porosa può essere facilmente pulita e disinfettata con un panno umido, acqua calda, vapore e tutti i tipi dei più comuni detergenti e disinfettanti per uso domestico, purché non alcalini. Sono necessarie solo poche precauzioni, quali l'evitare l'uso di acidi o basi forti, evitare di strofinare con sostanze o strumenti fortemente abrasivi.

ABOUT LAMINATED TABLE TOPS

Gaber's laminate table tops are composed of a high-pressure decorative laminate layer, with a recycled-wood chipboard core and ABS edging. Gaber's support materials are E1 according to tests stipulated by the European standards EN717 and EN120 regarding formaldehyde emission. Laminate tops come ready for Gaber kit bases.

The result is homogeneous, static, lightweight and highly customizable in terms of shapes and finishes.

Our laminate tops are manufactured according to the following European Standards related to fire reaction: EN 13501-1:2009 B -s2, d0.

MAINTENANCE & CLEANING

Gaber laminated table tops do not require any special maintenance beyond normal cleaning.

Laminated surfaces can be easily cleaned with a soft cloth dampened with water, even with cleaning agents, but not alkaline and generally aggressive. Avoid the use of strong acids or bases, avoid wiping with abrasive substances or equipment.

COSA SONO I PIANI DEI TAVOLI IN LAMINATO?

I ripiani laminati che Gaber utilizza per i propri tavoli sono composti da uno strato di laminato decorativo ad alta pressione, supportato da un pannello di truciolare; quest'ultimo realizzato con i materiali di scarto delle normali lavorazioni del legno. I piani sono bordati con bordo in Abs. La tipologia di supporto utilizzato da Gaber per i propri piani è di classe E1 secondo i test espressi dalle normative europee EN717 e EN120 in materia di emissione di formaldeide. I fissaggi dei ripiani in laminato sono già predisposti per i basamenti Gaber.

Il risultato è un prodotto omogeneo, antistatico, leggero e facilmente personalizzabile in forme e finiture.

I nostri piani in laminato sono realizzati secondo la normativa europea di reazione al fuoco EN 13501-1:2009 B -s2, d0.

MANUTENZIONE E PULIZIA

I piani laminati di Gaber non richiedono alcuna manutenzione particolare al di là della normale pulizia.

La sua superficie può essere facilmente pulita con un panno morbido imbevuto di acqua, anche con detersivi per uso domestico, purché non alcalini ed in genere aggressivi. Evitare l'uso di acidi o basi forti, evitare di strofinare con sostanze o strumenti abrasivi.

Standard Laminated Surfaces

ABOUT LAMINATED TABLE TOPS

Gaber's laminate table tops are composed of a high-pressure decorative laminate layer, with a recycled-wood chipboard core and ABS edging. Gaber's support materials are E1 according to tests stipulated by the European standards EN717 and EN120 regarding formaldehyde emission. Laminate tops come ready for Gaber kit bases.

The result is homogeneous, static, lightweight and highly customizable in terms of shapes and finishes.

Our laminate tops are manufactures according the following European Standards related to fire reaction: EN 13501-1:2009 B -s2, d0.

MAINTENANCE & CLEANING

Gaber laminated table tops do not require any special maintenance beyond normal cleaning.

Laminated surfaces can be easily cleaned with a soft cloth dampened with water, even with cleaning agents, but not alkaline and generally aggressive. Avoid the use of strong acids or bases, avoid wiping with abrasive substances or equipment.

ABOUT FENIX LAMINATED TABLE TOPS

Gaber's Fenix laminated table tops are composed of a decorative Fenix laminate layer, with a recycled-wood chipboard core. Tops utilize ABS edging, made using nanoparticles and acrylic resins. This coating avoids fingerprints on the material, makes it soft-touch, heat-repairing, opaque and extremely resistant to bumps and scratches. In addition to this, the material is water repellent, hygienic, easy to clean and suitable for food-contact. Gaber's support materials are E1 according to tests stipulated by the European standards EN717 and EN120 regarding formaldehyde emission. Laminated tops come ready for Gaber kit bases. To optimize the production process, sizes may vary in tolerance ±5mm.

MAINTENANCE & CLEANING

Gaber laminated table tops do not require any special maintenance beyond normal cleaning.

Laminated surfaces can be easily cleaned with a soft cloth dampened with water, even with cleaning agents, but not alkaline and generally aggressive. Avoid the use of strong acids or bases, avoid wiping with abrasive substances or equipment.

CHE COSA SONO I PIANI DEI TAVOLI IN LAMINATO FENIX?

I ripiani laminati che Gaber utilizza per i propri tavoli sono composti da uno strato di laminato Fenix decorativo, supportato da un pannello truciolare; quest'ultimo realizzato con i materiali di scarto delle normali lavorazioni del legno. I piani sono bordati in ABS, realizzato per mezzo dell'uso di nanoparticelle e resine acriliche. Tali rivestimenti rendono il materiale anti-impronta, morbido al tatto, termoriparatore, opaco ed estremamente resistente ad urti e graffi. Oltre a ciò il materiale è idrorepellente, igienico, resistente alle muffe, facile da pulire e adatto al contatto con alimenti. La tipologia di supporto utilizzato da Gaber per i propri piani è di classe E1 secondo i test espressi dalle normative europee EN717 e EN120 in materia di emissione di formaldeide. I fissaggi dei ripiani in Laminato sono già predisposti per i basamenti Gaber. Ad ottimizzazione delle lavorazioni, le dimensioni possono variare nella tolleranza di ±5mm.

MANUTENZIONE E PULIZIA

I piani laminati di Gaber non richiedono alcuna manutenzione particolare al di là della normale pulizia.

La sua superficie può essere facilmente pulita con un panno morbido imbevuto di acqua, anche con detersivi per uso domestico, purché non alcalini ed in genere aggressivi. Evitare l'uso di acidi o basi forti, evitare di strofinare con sostanze o strumenti abrasivi.

ABOUT IRON TABLE TOPS

Gaber's Iron table tops are made of composite materials: a non-deformable water-repellent multilayer wood-based core, covered in steel. The slim line result is elegant, stylish and practical. Iron tops come pre-bored for Gaber kit bases. These tough materials make iron tops suitable for indoor as well as outdoor use.

MAINTENANCE & CLEANING

Gaber's Iron table tops do not require any special maintenance beyond normal cleaning.

Its surface can be easily cleaned with a soft cloth dampened with water, even with household cleaning detergent, provided they are not alkaline and generally aggressive. Avoid the use of strong acids or bases, avoid rubbing with abrasive substances or devices.

COSA SONO I PIANI DEI TAVOLI IRON?

I sistemi Iron che Gaber utilizza per i propri piani dei tavoli sono realizzati da materiali compositi: il cuore del sistema è realizzato con un materiale multistrato, a base legnosa, resistente all'umidità, di grande stabilità. Il rivestimento in acciaio e lo spessore contenuto rendono il prodotto elegante, raffinato e pratico. I fissaggi dei piani Iron sono già predisposti per i basamenti Gaber. Le finiture disponibili lo rendono adatto anche all'uso per outdoor, grazie all'ottimale resistenza agli agenti atmosferici.

MANUTENZIONE E PULIZIA

I piani Iron di Gaber non richiedono alcuna manutenzione particolare al di là della normale pulizia.

La sua superficie può essere facilmente pulita con un panno morbido imbevuto di acqua, anche con detersivi per uso domestico, purché non alcalini ed in genere aggressivi. Evitare l'uso di acidi o basi forti, evitare di strofinare con sostanze o strumenti abrasivi.

ABOUT TECHNO POLYMER TABLE-TOPS

The Techno Polymer Compounds Gaber uses on its table tops have high structural, heat and abrasion resistance. Gaber's technopolymer table tops are practical, shock-resistant, colorful and inexpensive.

Gaber technopolymers are non-toxic, stain-resistant, antistatic and UV-resistant and consequently have excellent resistance to atmospheric agents. All these materials are recyclable in the full respect of our Natural Environment. Gaber produces plastic injected materials without added chemicals and, as far as possible, recycled pre-used technopolymers are sourced as a base raw material. Technopolymer table top colors perfectly match the colors of Gaber's seating collection.

MAINTENANCE & CLEANING

The plastic surfaces of Gaber products can generally be cleaned with a cloth and warm water. For the most persistent stains, a small amount of liquid soap diluted in water may be used. Do not use acetone, trichloroethylene, ammonia, alcoholic substances and detergents that contain even just a small amount of these substances. We also recommend avoiding all types of abrasive and solvent substances or rough sponges.

COME SONO FATTI I RIPIANI IN TECNOPOLIMERO?

I piani in Tecnopolimero utilizzati da Gaber per i propri tavoli sono realizzati per mezzo del processo di iniezione plastica. I piani così realizzati sono pratici, resistenti agli urti, colorati ed economici. I compound di tecnopolimeri utilizzati da Gaber nella realizzazione dei propri prodotti sono caratterizzati da un'elevata resistenza strutturale, termica e all'abrasione. Il tecnopolimero è atossico, antimacchia, antistatico e anti-uv: qualità che lo rendono ottimamente resistente agli agenti atmosferici. I tecnopolimeri utilizzati da Gaber sono integralmente riciclabili, nel pieno rispetto del nostro Ambiente Naturale. Gaber produce articoli termoplastici senza additivi chimici e, ove possibile, vengono utilizzati tecnopolimeri riciclati derivanti da post-consumo. I colori dei ripiani dei tavoli corrispondono ai colori della vasta collezione di sedute Gaber.

MANUTENZIONE E PULIZIA

Le superfici in tecno polimero dei piani dei tavoli Gaber possono essere pulite con un panno umido e soffice imbevuto in acqua. Per le macchie più ostinate è possibile diluire in acqua del sapone neutro liquido con moderazione. Non utilizzare acetone, trielina, ammoniaca, sostanze alcoliche o detersivi che contengano anche piccole quantità di tali detersivi. Non utilizzare a contatto con il prodotto sostanze abrasive o solventi, strumenti di pulizia ruvidi.

LOL PLUS BASE

The Lol Plus table bases collection is made of steel, the cross is made in die cast aluminum, and provided with flip-top joint. The shape of the base and the flip-top mechanism allow the table to easily fold and stack, space-saving. The available colour palette is common to many Gaber seating collections, guaranteeing tone-on-tone colour co-ordination throughout designed settings rather than lively contrasts, defining various colour combinations between bases, tops and seating.

La Collezione di basamenti Lol Plus è realizzata in acciaio, la crociera è realizzata in presso fusione di alluminio, ed è dotata di giunto per la rotazione del piano. La forma della base e la meccanica che permette la rotazione del piano in posizione verticale, rendono il tavolo facilmente accatastabile in spazi ridotti. La palette di colori disponibile è comune a molte collezioni di sedute Gaber, garantendo abbinamenti tono su tono degli ambienti progettati, piuttosto che vivaci contrasti, definendo diverse combinazioni di colori tra basi, piani e sedute.

OFFICE & WORKSPACES *System*

Workstation 2027

This office furniture collection is intended for modern workplaces. It is distinguished by simple and rational worktop lines as well as slender and resistant support frames with a trestle shape. The service cabinets are suspended, a feature designed for easy and modern cleaning. The desks can be equipped with high-performance sound-absorbing screens, to improve privacy and the general acoustics of the workplace. The assembly systems have been especially designed to be fast and safe.

Programma d'arredo destinato ad uffici moderni con piani di lavoro dalle linee semplici e razionali, strutture di sostegno con forma a cavalletto per essere snelle e resistenti. I mobili di servizio sono sospesi, caratteristica pensata per una semplice e moderna pulizia automatica. Le scrivanie possono essere dotate di schermi divisorii per migliorare la privacy e l'acustica. I sistemi di assemblaggio sono veloci e sicuri.

Cabinets

To store files and folders in a world of colours. These filing cabinets are suspended, on frames, for easy obstruction-free cleaning. The cabinets themselves, tough and resistant, come with quick and effective assembly fixings. Drawers: On castors and fitted, these simple pieces help keep workspaces tidy and stationery in place.

Per contenere, archiviare e classificare, in un mondo a colori. I mobili contenitori sono sospesi, su strutture a cavalletto, per una semplice pulizia anche automatica. Le strutture, solide e resistenti, sono provviste di sistemi di assemblaggio veloci e sicuri.

Cassettiere: Su ruote e attrezzate, questi semplici complementi aiutano a contenere e ordinare le piccole necessità dell'ufficio.

Display wall or floor fixed storage shelving can enhance your most ambitious projects. Available with a black, gold or white matt painted steel frame, without any visible welds, Display is set off with solid Fenix laminate shelves. Display is a modular piece, which can support up to 4 shelves and lends itself to completing and finely decorating walls and corners of your commercial spaces. For correct use, the structure must be fixed to the wall or floor.

Semplice ed elegante, Display decorerà con discrezione i vostri progetti più ambiziosi. Disponibile con struttura in acciaio verniciato nero, oro o bianco opaco, senza nessuna saldatura a vista, è impreziosito da solidi ripiani in laminato Fenix. Display è un elemento modulare, che può sostenere sino a 4 mensole e si presta a completare e decorare con raffinatezza pareti ed angoli dei vostri spazi commerciali. Per un corretto utilizzo, questo mobile deve essere fissato alla parete o pavimento.

TUNE Free-Standing

The sound-absorbing free-standing panels of the Tune collection are designed both to furnish with elegance as well as to assure the precise function of reducing sound reverberation. Equipped with a matt painted metal base, they are made of polyester fiber and available in two different sizes.

I pannelli fonoassorbenti free-standing della famiglia Tune sono pensati per arredare con eleganza, nella precisa funzione di ridurre il riverbero sonoro. Dotati di basamento in metallo verniciato opaco, sono realizzati in fibra di poliestere e disponibili in due diverse dimensioni.

POWER UNIT / UNITÀ DI ELETRIFICAZIONE

The Power Unit includes a power socket (Schuko), a USB type A+C port and 2meter connection cable. Thanks to its stand-alone base, the power unit can fixed by screws or can be placed anywhere on the worktop without any limits, allowing the user to get the power wherever is needed. Thanks to a suspension bracket the power unit can be easily mounted upside-down the worksurface, in order to keep free your desk.

Il sistema di elettrificazione da scrivania include una presa energia (Schuko), le porte USB A+C. e due metri di cavo di connessione. La sua base d'appoggio consente di essere fissata con viti o posizionata senza alcun vincolo al piano, offrendo la libertà di utilizzo ovunque ci sia una esigenza di collegamento. Il fissaggio sotto piano per mezzo di un'apposita staffa permette di liberare le superfici d'appoggio, in questo modo si può sfruttare al massimo lo spazio della superficie di lavoro.
