

COMPILE SHELVING SYSTEM

"Storage is important because it is so universal: everybody needs good solutions. The inspiration for the Compile Shelving System was indeed the everyday storage situation. The design, with its logical construction, parallels to a certain degree an unpretentious Scandinavian lifestyle—one shelf represents one building unit while the length of the tube defines the shelf height. In this simple way one can assemble practical formations that fit individual needs—Compile should reflect and accommodate the life of which it is part."

— Cecilie Manz

Designed by	Cecilie Manz / 2016
Environment	Indoor
Country of Production	Poland
Assembly Required	Yes
Description	A contemporary take on the classic shelving system. Compile consists of a shelf and three heights of dividing tubes. Arrange the shelves and tubes as you please or order from the prearranged configurations.
Material	Powder coated steel.
Cleaning & Care	Remove dust from shelves with a soft cloth.
Additional Product Information	Compile systems should always be mounted to a wall, using wall brackets. A Compile Shelving System can hold up to 300 kg / 660 lbs. Compile Shelving Systems can be built as tall as wanted, as long as they are mounted to a wall using brackets. Muuto recommends not building Compile systems higher than 225 cm / 88.6".
EN 16121:2013*	TESTS & CERTIFICATIONS Test severity I. Non-domestic storage furniture. Requirements for safety, strength, durability and stability.
EN 16122:2012*	Domestic and non-domestic storage furniture. Test method for the determination of strength, durability and stability. *Both tests were conducted using a 180 cm / 70.75" shelving configuration with wall brackets attached to the wall.
ANSI/BIFMA X5.9-2019	American National Standard For Office Furnishings – Storage Units.

ENFOLD SIDEBOARD

"Enfold Sideboard came from the many factory visits that I do as a designer, prompting me to explore the aesthetic appeal of industrial objects. I wanted to translate this element into modern storage together with an appreciation of the Scandinavian design tradition. The Enfold Sideboard combines the warm touch of oak, referencing the wooden sideboards of the 20th century, with the contemporary expression of its ridged steel front, softening up the cold material and binding it together with the sideboard's oak components. The design is a new perspective on the traditional sideboard with an elegant and simple look, complemented by a unique duality of materials."

— Thomas Bentzen

Designed by	Thomas Bentzen / 2018
Environment	Indoor
Country of Production	Sweden
Assembly Required	Yes
Description	The Enfold Sideboard combines industrial materiality with residential references for a new perspective on modern storage. Made from a lacquered steel that gently enfolds its top and bottom in solid oak, the Enfold Sideboard fuses cold and warm materials for a unique expression, paired with the vibrantly modern expression of its ridged steel doors. The design comes in two sizes: one vertical and one horizontal, both with adjustable shelves to either side of its middle—the horizontal sideboard has one shelf to either side of its middle to be placed across five different levels while the vertical sideboard has one shelf to either side of its middle to be placed across three different levels. Both sizes have outlets for cables inside.
Material	Body, shelves and sliding doors in lacquered, bent steel. Top and base in lacquered solid oak.
Cleaning & Care	Clean the sideboard with a damp cloth. If necessary only, use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away.
EN 16121:2017+AI:2017 - L2	TESTS & CERTIFICATIONS Extreme use. Non-domestic storage furniture. Requirements for safety, strength, durability and stability.
EN 16122:2012	Extreme use. Domestic and non-domestic storage furniture. Test method for the determination of strength, durability and stability. Both tests were conducted using Enfold Sideboard Tall version.

REFLECT SIDEBOARD

"Reflect owes its stunning and unique looks to the phenomenon under which it was envisioned: The natural light of Scandinavia. The four corners on each front have a unique thickness and curve that contributes to the light reflections of the drawers."

— Søren Rose

Designed by	Søren Rose Studio / 2011
Environment	Indoor
Country of Production	Slovenia
Assembly Required	No
Description	The Reflect Sideboard is a storage unit with equal emphasis on functionality and aesthetics. With a curved surface in wood that echoes light, the Reflect Sideboard is Nordic craftsmanship and design in a modern context.
Material	Oak version: board in oiled oak veneer with legs in oiled solid oak. Black version: board in lacquered oak veneer with legs in lacquered solid oak.
Cleaning & Care	Dust off often and carefully with a soft cloth along the grain pattern. Periodically, clean with moist cloth. Dry immediately with soft cloth following wood grains. Remove stains using a mild mixture of water and detergent. The Reflect Sideboard should not be subjected to excessive humidity, heat or direct sunlight.

STACKED STORAGE SYSTEM

"Design should always have a characteristic expression while serving an obvious function. I found that shelving systems often only fulfilled one of the two and from there grew the idea for Stacked. It prompted me to design a system of modules in three sizes that can be arranged and rearranged in any way you'd like, making for a unique storage solution. Stacked is a simple and efficient storage system that can be personalized to the needs of your home."

— Julien De Smedt

Designed by	Julien De Smedt / 2008
Environment	Indoor
Country of Production	Slovenia
Assembly Required	No
Description	Being both versatile and functional, the Stacked Storage System can be arranged and rearranged for the exact configuration that you'd like, whether it be as shelving setups, sideboards, bookcases or side table. The design can easily be refreshed by playing around with the space between the modules or mounting the modules with backboard directly onto the wall. Visit our Product Planner to explore the possible configurations: planner.muuto.com/stacked
Material	Colored versions: Every side is cut out of MDF, then assembled, glued together and painted with three layers of PU lacquer. Oak versions: Every side is cut out of MDF with oak veneer, then assembled and glued together.
Cleaning & Care	Remove dust from shelves with a soft cloth or remove abrasive dust particles. When necessary clean with moist cloth. For wood veneer finishes, dry immediately with a soft cloth following wood grains. The wood should not be subjected to excessive heat, direct sunlight or humidity.
Additional Product Information	Max. weight per module: 25 kg/ 55 lbs (free-standing) and 12 kg /26.5 lbs (wall-mounted). Max. total weight: 300 kg/ 660 lbs when evenly distributed on the Podium. Max. total height: 285 cm/ 112.25" and max. 6 modules on top of one another. Modules must always be connected with Clips or be mounted to a wall to ensure stability of the shelving system. Follow assembly guideline and see our configuration guidelines on: planner.muuto.com
Spareparts	Each Stacked module comes with two color matching clips, while Oak comes with Light Grey clips. Extra clips available as Set of 5 in the colors White, Light Grey, Grey, Dusty Green and Midnight Blue.
EN 16121:2013*	TESTS & CERTIFICATIONS Test-severity 2. Non-domestic storage furniture. Requirements for safety, strength, durability and stability.
EN 16122:2012*	Domestic and non-domestic storage furniture. Test method for the determination of strength, durability and stability. The Stacked Storage System* complies with the European requirements for safety, strength, durability and stability within storage — EN 16121:2013 and EN 16122:2012. *Test approved for single modules and pre-arranged configurations 1, 2, 3, 4, 5, 6 and 7.

ACCESSORIES

ARRANGE DESKTOP SERIES

"We wanted to create a flexible system that allowed for us to organize things on a desk or shelf. A focal point in the design process was to make the design playful by encouraging the user to interact with it, using and reconfiguring the combination of trays, paired with an expression that is inspired by contemporary architecture. With its trays made in 93% recycled plastic and lids in cork and aluminum, the Arrange Desktop Series brings a forward-thinking perspective to modern storage."

— Big-Game

Designed by	Big-Game / 2020
Environment	Indoor
Country of Production	Vietnam
Description	A configurable design that brings elegant functionality to the home office and workplace, paired with the recycled material of its trays and an architectural expression.
Material	Lid in either cork or anodized aluminum. Trays made using 93 % recycled plastic.
Cleaning & Care	Cleain with moist cloth.
